isbn:9780723433217

Specialist Training in Cardiology is written for those doctors starting their career in this specialty (or in general internal medicine). The text presents a succinct account of the subject concentrating on diagnostic techniques, treatment and management. Throughout extensive use is made of radiographs, drawings, lists and tables. The aim is

to provide a 'bridge' between introductory undergraduate texts and the very large and expensive major reference works. Wherever possible evidence-based treatment options are given and referenced. A detailed list of further reading is also provided. \* Series aimed at specialist registrar level \* Succinct style making use of bullet points, boxes, tables etc. \* Highly accessible four-colour design
