Whether recalling the experience of being chased through the Grand Canyon by a bighorn sheep, swimming with sharks off the coast of British Columbia, watching a peregrine falcon perform acrobatic stunts at 200 miles per hour, or engaging in a tense face-off with a mountain lion near a desert waterhole, Craig Childs captures the moment so vividly that he puts the reader in his boots. Each of the 40 brief, compelling narratives in THE ANIMAL DIALOGUES focuses on the author's own encounter with a particular species and is replete with astonishing facts about the species' behavior, habitat, breeding, and lifespan. But the glory of each essay lies in Childs's ability to portray the sometimes brutal beauty of the wilderness, to capture the individual essence of wild creatures, to transport the reader beyond the human realm and deep inside the animal kingdom.
