This is how the world/changed. The Wall.

Communism. A new world order. But
before all that, there is a lurking ques-
tion: Why? What really happened? The
answer is Rebecca. Rebecca, who
showed the world the simple truth that
she who holds the secrets holds the
world. And she alone held them, tight.
Rebecca Townsend, dashing, roman-

tic, with a wit as outlandish as her libido, is a recruiter of new talent for the National Security Agency. Suddenly she goes AWOL from the agency with a handsome young recruit. Piece by piece, the agency discovers that Rebecca is one of twelve members of a family that buys and sells the most powerful commodity in this new age, information. Can it be that she and the Disciples plan to reveal what every nation will kill to protect: its most cherished secrets?

The results could be chaos, war or peace.

Only one man can stop her. T. C. Steele--patriot, voyeur, and reluctant spy. A former information analyst at the NSA, he is frantically recalled from an early retirement to figure out what stratagem Rebecca has put into play. Has she been selling out all along? Is she going over to the other side? And what side is that, anyway? Steele sifts through the hieroglyphic chards of electronic clues as he is rushed into an intricate and gripping game of quarry and hunter. He must stop Rebecca at all cost, and to do so he is forced to aban-

don the hushed and secure offices of the agency and take to the field. To survive, Steele clings to his own simple truth: Solicit the trust of others; trust no one. Here are American spies in pursuit of one another, as their world crashes down around them. The chase is suffused with the mysterious culture of veiled enterprise that surrounds the NSA--known to insiders as No Such Agency. This bold and unforgettable thriller reveals that the sphere of nations is balanced on precious little, and this is how it changed forever.., or did it?

The Disciples is the reinvention of the American spy-thriller.
