Sparkle Hayter, known for her quirky mysteries described in turn as "hilarious" (Entertainment Weekly), "sassy and bright" (Kirkus Reviews), and "flat-out funny, audacious and a little weird" (Publishers Weekly), checks her latest Robin Hudson mystery into Manhattan's most outrageous hotel, where art is a way of life-and death-in The Chelsea Girl Murders. When a fire forces TV executive Robin Hudson to vacate her apartment, she and her cat, Louise Bryant, move into the fabled Chelsea Hotel, the bohemian hostelry where artists both famous and infamous have long lived in semipeaceful coexistence with countless hangers-on, wanna-bes, and rubbernecks looking for the "real" New York. Then a smoky-eyed art dealer she's just met dies on her doorstep, drawing Robin reluctantly into a murder investigation. Is the murder related in some way to the star-crossed and rather irritable young lovers who have appealed to Robin for help? Or to a deadly catfight between rival lovers of the dead man? And how do the cake-baking nuns of Immaculate Confection, Inc., figure in it? To sort it out, Robin must brave the whole downtown scene and more: guerrilla artists, jealous women, Zen bodybuilders, gouty widows, and

befuddled tourists. It could make a girl crazy, having to dig deep into the history of the venerable hotel nicknamed (not without reason) "the mother ship." Oh, plus...one final, terrible complication: Robin seems to have fallen accidentally in love.
