评论

2020/35 This is an interesting, useful but old book about modern English. I can still learn a lot from this book but some of them are obviously obsolete. I am interested in the books and writers recommended in the end of this book. I will try to read more.

it is pretty useful and helpful especially the recommended masterpieces in the last chapter!

“plain words” 我想作者应该是很鄙视GRE考试的吧God Read English

基本上高中都讲过的语法。不过看看原版还是不错的。
