Fourteen-year-old Jimmie (Janine~  
Gavin is caught up in a transitional  
whirlwind of changes, hurtling toward  
adulthood at a pace she cannot control,  
Wrapped up in her own personal prob-  
lems and fears, she does not see the  
growing strains in her parents rela-  
tionship. And she is completely unpre-  
pared for the breakdown of their mar-

riage. The divorce changes Jimmie's family life and her feelings about her parents, and force her to reevaluate and try to understand the difficulties that each member of her family has to face.

Jimmie is fortunate in having friends. And as her own sense of security is shaken, she looks at the family relationships of the girls she knows, trying to understand how others cope with their problems. For each of the families, in its own way, has its conflicts of personalities and values.

In an extremely moving novel, Mary Stoltz tells the story of a young girl with honesty, humor and compassion.
