"The excitement and body count is high" (IRISH INDEPENDENT, 26 Nov)^"The characters in Robert Ludlum's new novel are so hardboiled they crack rocks just by staring at them. An entertaining action thriller. A big book that crosses continents in a single chapter. It has a huge array of characters, is fast paced, has a good eye for detail and comes to a clever resolution. [A] clever plot." (DAILY EXPRESS, 2 Dec)^"A satisfying amount of action involved, with hair-raising escapes on almost every page, dramatic scraps and puzzle-solving, and about as much wet work as a thriller writer can squeeze in... Ludlum fans will love it." (THE GUARDIAN, 17 December)
