This is the true story of a six-year-old girl named Elena and her battle against cancer. In her last days she showed a community how to love and how to live. Written through the eyes of her parents as a remembrance for her younger sister, her daily story tells one of humility and inspiration as she lives each day, one at a time. In her short time she painted a masterpiece that would hang in an art museum, she accomplished a truly spectacular series of wishes that she alone created, and she inspired a cause that remains today to help children everywhere in their fight against brain cancer.
