著者:Edmund Leach

出版者:University Of Chicago Press

出版时间:1989-10-15

装帧:Paperback

isbn:9780226469683

In this lucide guide to the often abstruse works of Claude Leacute;vi-Strauss, Edmund Leach synthesizes the thought of one of the twentieth century's greatest anthropologists and provides a thoughtful introduction to the theory and practice of structuralism. Leach organizes his work not by chronology but by theme, exploring three important topics in Leacute;vi-Strauss's work: human beings and their symbols, the structure of myth, and kinship theory. Written concisely and with great care and penetration, this brief book is both a fine introduction for the uninitiated reader of Leacute;vi-Strauss and a critical analysis that will prove valuable to those more familiar with the anthropologist's work.
