著者:Kenneth Libbrecht

出版者:Voyageur Press

出版时间:2008-10-13

装帧:Hardcover

isbn:9780760334980

Kenneth Libbrecht's previous "Snowflake" books have all been best-sellers, and with this latest one, he shows us there is even more to wonder and marvel at in these crystalline works of art. Showcasing individual snowflake crystals using micro-photography, Libbrecht takes us through a world of beauty and fascination, with literary quotes and scientific information to guide the reader through this marvelous world - a blizzard of stunning images in this cube book.
