The theology of the Eucharist has long been the subject of heated debate, particularly since the Reformation. George Hunsinger's 2008 book explores ways in which Christians might resolve their differences in this area. With the aim of fostering ecumenical convergence, he tackles three key issues dividing the churches about the Eucharist: real presence, Eucharistic sacrifice, and ordained ministry. Hunsinger, a Protestant theologian in the Reformed tradition, brings Eastern Orthodox views more systematically into the discussion than has been common in the West. He also discusses the social significance of the Eucharist. His detailed conclusion summarizes and clarifies the argument as a whole with an eye to explaining how the views proposed in the book could lead the churches, beginning with the Reformed church, closer to the day when obstacles to Eucharistic sharing are overcome. George Hunsinger has been chosen as the recipient of the 2010 Karl Barth Prize by the jury of the Union of Evangelical Churches in the Evangelical Church in Germany.
