Four Queens is a rich pageant of glamour, intrigue, and feminine power at a time when women were thought to have played limited roles. In thirteenth-century Europe, four sisters from a single family-Marguerite, Eleanor, Sanchia, and Beatrice of Provence-rose from obscurity to become the queens of, respectively, France, England, Germany, and Sicily. All four were beautiful, cultured, and ambitious, and their stories offer a window into the era of chivalry, crusades, poetry, knights, and monarchs that will appeal to fans of Alison Weir and Antonia Fraser.

也许这就是欧舒丹四个玫瑰香水的命名由来吧，哈哈。
