66 Domino Cards are included in each kit. The domino cards are color coded for each skill so cards are easily sorted if multiple titles are used. The domino cards are manufactured from heavy card stock and plastic coated on both sides for durability and strength. The visual and tactile manipulation of the domino cards as well as the verbalization of the skill being learned with enhance the desired retention of each skill being learned. Teaching guide with extension activities is included in each kit!

Numbers and Counting Dominoes are designed to meet the following key instructional goals:

* counting, recognizing, representing, and naming whole numbers 1-10

- * performing basic addition computations
- * matching number sets For use with Grades PreK-1.
