The Build-a-Bible design system is a fresh new approach to the Bible-buying experience that lets you create the look, feel, and function of the most important book you ll ever own.

And it s really as easy as 1-2-3. First, choose the Build-a-Bible cover that fits your individuality. Then add the Holman CSB or Spanish-languageRVR 1960 Personal Size Reference Bible both built to last and to fit any cover in the system. Finally, accessorize your Bible with ribbon markers, notepads, and more to fit your lifestyle.
