This extraordinary novel tells the tragic and inspiring story of the Polish people and the national nightmare of conquest and occupation that followed the invasion by Germany and Russia.

When their country was overran in 1939, the lives of the Polish people were changed utterly. Thousands

were deported to Soviet work camps, others lived in hiding, millions more were arrested and murdered. THE MARCH is a masterful blend of history and imagination that shows people caught up in the sweep of earthshaking events. W. S. Kuniczak has the remarkable ability to make his characters part of the human experience itself. Their lives explore eternal questions about survival and the battle against brutality that war involves. There is Tarski, the professional soldier whose devotion to duty blinds him to truths other than his own and who is murdered with thousands of others in the Katyn Forest; Mendel-tort, an impassioned Zionist, whose commitment to the cause of his people leads him to a dreadful personal decision; Catherine, who grows through the circumstances of war and separation to an understanding of herself; Abel, a youthful poet, whom the
