Big Bear loves his stripy sweater. It's warm. It's soft. It's his very favorite. But Big Bear is growing bigger though his sweater isn't. When it no longer fits, he gives his sweater to his brother. Little Bear loves his new sweater, almost as much as he likes playing in the woods with his big brother. But after a day of climbing trees and splashing in a creek, Little Bear's sweater is a soggy mess. Big Bear is very angry. This tender story captures the joys and trials of being a sibling. The warm illustrations bring their adventures to life and the touch-and-feel softness of sweater throughout will

make this a favorite for every child that reads this book.
