A lab manual for undergraduate courses in Introductory/Preparatory/Basic Chemistry. Corwin's best selling lab manual has been used by over 300,000 students. Paying particular attention to the environmental issue, the Fifth Edition retains an effective format of a pre-laboratory assignment, a stepwise procedure, and a post-laboratory assignment. These "bullet-proof" experiments have been used successfully with students in Introductory Chemistry, Preparatory Chemistry, and Allied Health Chemistry. This lab manual can be packaged with any Pearson Intro Prep Chemistry book.
