For courses that address time management. Don't watch the clock-romance it! Filled with stories of universal appeal, this entertaining book is about time and how you can use it to love the life you live. Illuminating ideas and twelve Action Steps help you learn

to use your time to accentuate the positives and reduce the negatives in your life. Drawing on Dr. Karlin,s 20+ years of experience, learn how time management influences all aspects of your life and how to make life (at both home and work) more productive and happy.
