A great starting point for new graduates or career-changers, this fun and quirky look at career decisions shows how to find a job that fits you perfectly—leaving no reason to settle for anything less. You could make money as a city trader—or make a difference as a carbon trader. You could be a museum curator or a spa reviewer—or if you want to make an impact, how about becoming a demolition expert? There's a cool career to suit everyone, so get your thinking cap on. A cool career will transcend the mere idea of work and become a job that you can be really passionate about. This is not a definite guide to every career out there, just the coolest around.
