装帧:Hardcover

isbn:9780749439927

This second edition of Doing Business with Libya is a comprehensive and authoritative guide to developments in all aspects of doing business in Libya, a country with one of the highest GDP per capita in the developing world. The guide examines the legal structure and business regulations, including finance, accountancy and taxation issues. Although Libya's economic mainstay is still the oil and gas industry, the government increasingly pursues economic diversification. Profiles of key industry sectors are also provided by expert contributors.
