Here and There is the magazine of one person. The fact that Nakako's name is credited as the author on the cover is not an egocentric statement but reveals the spirit in which she makes it. Some people make films, others write books or make artworks, and Nakako makes a magazine. It is her personal work and in that sense she makes it in her own way, unlike most magazines on the planet. It also means she is free from capitalistic rules, from imposed trends, from the industry of fashion. Instead, she is free to follow her desire and to link the magazine with her personal life.

## 评论

今天在MING上看到的，有一辑那作者的介绍，看了就很喜欢。好想买一本，可以在暑假用来当日语学习的课外阅读的教材，不过好像很难买的样子。。。。
