On the surface Larissa Demming is a happily married woman. She dabbles in watercolors, indulges her husband, a preoccupied professor, and worries about her alarmingly practical children. She is indifferent to anything that would expose her true feelings. That is, until a walk along the riverfront near her midwestern home brings

her face to face with the sensuous satyr Pan. It is Pan who at last unleashes her long-dormant sexuality and frees her to confront her secret desires and her hidden past.

Mrs. Detaining and the Mythical Beast is Faith Sullivan's most exhilarating novel yet, a seemingly whimsical yet provocative odyssey that moves from buoyant comedy to romantic fantasy to gripping drama.

Larissa Detaining knows that once she becomes involved with Pan, her life--and the lives of everyone around her--will never be the same. Yet she does, and we move with her, from the Minnesota countryside to the Greek isles, where Pan forces her to confront herself and her forbidden past.

Faith Sullivan's first novel, *Repent, Lanny Merkel*, was hailed by the *Los Angeles Times* as "a very funny tale of modern-day morality." *The West Coast Review of Books** also said, "Move over, Jean Kerr, move over Erma Bombeck and Judith Guest, for Faith Sullivan has entered the scene," and *Library Journal* compared her to Erica

Jong and Gail Parent.

In Mrs. Demming and the Mythical Beast, Faith Sullivan has created an enchanting story about the risks and rewards of releasing our own very real beasts.
