装帧:Paperback

isbn:9781869404086

This stunning collection of poems is a characteristic mix of thoughtful reflection and precise imagery of landscape. Each piece captures an ordinary moment with a visual clarity but always pushes the descriptions further, broadening the intellectual and moral meaning. Finding a true balance, they re-create historical moments with vividness while evoking the gifts and loss of the past. From the Wellington hills to the light art of Bill Culbert, the poetry displayed here is distinctive, scrupulous, and splendid.
