In this exuberant book, the best-selling author Natalie Angier distills the scientific canon to the absolute essentials, delivering an entertaining and inspiring one-stop science education. Angier interviewed a host of scientists, posing the simple question "What do you wish everyone knew about your field?" The Canon provides their answers, taking readers on a joyride through the fascinating fundamentals of the incredible world around us and revealing how they are relevant to us every day. Angier proves a rabble-rousing, wisecracking, deeply committed tour guide in her irresistible exploration of the scientific process and the basic concepts of physics, chemistry, evolutionary biology, cellular and molecular biology, geology, and astronomy. Even science-phobes will find her passion infectious as she strives "to make the invisible visible, the distant neighborly, the ineffable affable."

前面还try to be inspiring然后一些很lame的玩笑之后就彻底读不下去了

評價很高的一本科普書，作者用意很好，充滿熱情，但文字太『生動有趣』，前面簡介一派祥林嫂作風，這書大概是給完全不看科普之人寫的～
