In 1959, a young woman, Haruko, marries the Crown Prince of Japan. She is the first nonaristocratic woman to enter the mysterious, hermetic monarchy. Met with cruelty and suspicion by the Empress, Haruko is controlled at every turn, suffering a nervous breakdown after finally giving birth to a son. Thirty years later, now Empress herself, she plays a crucial role in persuading another young woman to accept the marriage proposal of her son, with tragic consequences. Based on extensive research, *The Commoner* is a stunning novel about a brutally rarified and controlled existence, and the complex relationship between two isolated women who are truly understood only by each other.
