An American traitor is on the run, before the CIA or the Czechs he was spying for can ask their questions.

The CIA thinks ex-employee Tom Talley is going to be the key to the answers they need-if they can lure him into the job.

To lure Talley, they lie to him. A simple mission in Austria, the CIA says, just a check on someone involved in an old case of his. No danger. He can even bring his girlfriend Jane along, have a vacation at CIA expense.

He has only one chance-to find
