A lot of people like cats. A lot. Really. And they will love "Itty Bitty Kitty Ditties," a treasury of felines from A to Z in quirky pen-and-ink illustrations and short, witty poems. Reminiscent of T. S. Eliot's practical cats and Edward Gorey's "The Gashlycrumb Tinies," "Itty Bitty Kitty Ditties" has the makings of a brand new classic in its own right. The collection is an absolutely charming celebration of fat cats, curious cats, clever cats, vain cats, scaredy cats, boozy cats, and proud cats for the more discerning cat fancier.
