In Policeman in Armour, Rupert Penny once again guides you through the evidence up to a certain point, then turns on you and says: “Now you ought to know who murdered the man, and how, and why.” But do you know? Test your brains and see. You will find it an enthralling-game. In this story, Sir Raymond Everett, ex-judge, is murdered in his mansion Heath Approach, and there is no shortage of suspects for Chief-Inspector Beale of Scotland Yard to interrogate and consider. Assisted as always by his friend and fellow-sleuth Tony Purdon, as well as Detective-sergeant ‘Horsey’ Matthews, also of the Yard, and the local constabulary, Beale finds this case one of the most challenging of his career.

继续四星半。深宅大院，怪奇遗嘱，不在场证明，谋杀。设定比起其他几本Rupert Penny都要更加俗套一些。虽然从头到尾家访却意外是全系列（目前看过的6本）中最好读的，也是猜想最能接近真相的，诡计稍微有点不公平

三星半

第一本鲁珀特，从这本大致可以看出作者的风格特点.看过古畑任三郎或科伦坡的朋友都知道，他们成功破案的要素就是问问题，那么我预先提个醒，这部作品的主角要比这

两位加一块还能问.我曾经一度想重新看一遍书，就是想数数他究竟问了多少个问题，但进行到五分之一时放弃了,因为确实太枯燥了，但你还不不能不看，因为有些线索多多少少就隐藏在问题之中，当然能不能察觉到是另外一回事了.尽管如此，书中的核心诡计还是很有看点，其实这个诡计应该分解成两部分，第一部分我记得跟某部金田一短篇极为相似，不知道金成阳三郎这家伙是不是又"借鉴"了,问题是第二部分，这部分跟我去年看的《Death of a Merchant of Death》有着相同的缺陷，就是一般人根本想不到.总而言之，不是很推荐阅读，除非你有强大的耐心和耐力
