出版者:W. H. Freeman

出版时间:2009-4-30

装帧:Paperback

isbn:9781429223188

Jay Phelan's "What is Life? A Guide to Biology" is written in a delightfully readable style that communicates complex ideas to non-biology majors in a clear and approachable manner. After reading Phelan's book, students will understand why they would want to know and talk about science. His skillful style includes asking stimulating questions (called Q questions) which encourage the student to keep reading to find the answer and will illuminate just how relevant science is to their life.
