They dropped from the atmosphere like microscopic snow. Billions of seeds, smaller than specks of dust, spiralling down from the heavens. A few survived, and began to grow. Now three people face a race against time. Dew Phillips, an agent with a classified unit of the CIA, and Margaret Montoya, a government biologist, must try to stop a modern plague that drives its victims to insanity, murder and suicide. And Perry Dawsey, an ex-footballer in a dead-end job, must race to find a cure for the rash that has appeared on his arm. And his back. And his neck. And which is getting bigger. And then the voices start. Scott Sigler is the new voice in new horror - his UK debut is a terrifying, menacing thriller about millions of alien parasites infecting the general population, driving the victims to murder and suicide...and waiting to hatch...
