Editorial Reviews

Product Description

A fascinating collaboration of interviews with twelve of the nation's leading holistic and alternative medical practitioners who discuss their breakthrough healing techniques.

Health on the Edge covers topics that range from Dr. Win Wenger's methods for increasing awareness and intelligence; to Bioacoustics, the use of sound to heal and

prevent disease, developed by Sharry Edwards, M.Ed.; to a high- frequency device that detects the human energy field, or aura, invented by pioneer Valerie V. Hunt, Ph.D.

Included in the book are discussions with C. Norman Shealy, M.D., Ph.D.; Robert S. Ivker, D.O.; Jeremy Geffen, M.D.; Roger Jahnke, O.M.D.; Alberto Villoldo, Ph.D., and other revolutionary healers.

## About the Author

Larry Trivieri, Jr., is a recognized lay expert in the fields of holistic and alternative healing therapies and has been exploring such approaches for the last thirty years. The author of The American Holistic Medical Association Guide to Holistic Health and the coauthor of The Complete Self-Care Guide to Holistic Medicine, he is currently a contributing editor for Alternative Medicine magazine.

## 作者介绍:
