

THE UNIVERSE AND DR. EINSTEIN

[THE UNIVERSE AND DR. EINSTEIN_ 下载链接1](#)

著者:Lincoln Barnett

出版者:Mentor Book

出版时间:1955

装帧:Paperback

isbn:9780758107329

Originally published in 1948 with a forward by Dr. Albert Einstein himself, THE UNIVERSE AND DR. EINSTEIN is a concise, lucid exposition of relativity theory which is comprehensible to almost any layman. Barnett often uses the same mental images that Einstein employed to originally develop relativity. This book is appropriate reading even for those with no background in physics. After more than 50 years, THE UNIVERSE AND DR. EINSTEIN remains required reading for every student and scientist seeking to unravel the complexity of Einstein's theories. It explains the answers that science offers to the puzzle of what exists, how and when.

评论

旧书不好读 句子都很长 一句句都写得像诗一样
不过这本绝对是对爱因斯坦所有理论诠释的最简单易懂的
