First published in 1907, *The Longest Journey* is the most personal of E.M. Forster's novels, and the one he was most glad to have written. Rickie Elliot, sensitive, idealistic and gifted with a powerful imagination, misleads him-self through his conventional desire for marriage and fatherhood. Falling for the beautiful yet superficial Agnes Pembroke, he gives up his writing ambitions and becomes a schoolmaster at a minor public school in order to marry her. So begins his journey away from the philosophical ideals of his Cambridge youth and his slow descent into a hollow world of rigid conformity and moral decay.
