Gender Articulated forges new connections between language-related fields and feminist theory. The essays presented here examine a range of cultures, languages and settings explicitly connecting feminist theory to language research. Some of the most distinguished scholars working in the field of language and gender today discuss such topics as Japanese women's appropriation of "men's language", the literary representation of lesbian discourse and the silencing of women on the Internet.

作者介绍:

目录: Introduction : twenty years after Language and woman's place / Mary Bucholtz and Kira Hall --
Cries and whispers : the shattering of the silence / Robin Tolmach Lakoff --
