In this stunning sequel to last Christmas' bestselling surprise hit, "Can a Robot be Human?", Peter Cave once again engages the reader in a romp through the best bits of philosophical thought. With the aid of tall stories, jokes, common sense and bizarre insights, Cave tackles some of life's most important questions and introduces the puzzles that will keep you pondering throughout the night. From encounters with bears (ethical dilemmas) to talking turkeys (the problem of induction), Cave storms through philosophy's classic conundrums with rapier wit and wisdom. Illustrated with quirky cartoons throughout, "What's Wrong With Eating People?" leaves no stone unturned, covering a smorgasbord of topics including logic, ethics, art and politics. It will provide a perfect gift for anyone who puzzles about the world!
