著者:Don DeLillo

出版者:Simon & Schuster Export

出版时间:2007-06

装帧:Paperback

isbn:9780739490457

"Falling Man" begins in the smoke and ash of the burning towers and follows the aftermath in the intimate lives of a few individuals. This is the inner seam of history, a novel that traces the way the events of September 11 reconfigured our emotional landscape, our memory, and our perception of the world. It is beautiful, heartbreaking and, ultimately, redemptive. --This text refers to an out of print or unavailable edition of this title.
