出版时间:2002/9/1

装帧:Hardcover

isbn:9780867195484

One of the innovators of cartoon expressionism, The Pizz, whose graphics have graced pop culture magazines and record covers for 20 years, explores America's underbelly in violent, mesmerizing panels. This collection gathers his most popular work and provides a view of his artistic evolution. Underscoring the angry, surreal tenor of America's lowbrow, The Pizz creates an alternative to the phony glitz of today's disposable pop culture.
