No one will question the perennial fascination of the egg and you and Dr. Shettles, an eminent investigator at Columbia-Presbyterian, who pioneered in test-tube conception back in 1950, has since developed the 80% accurate method of predetermining whether you will have a boy or a girl. Tire two procedures are simply outlined here along with Dr. Shettles other paraphernalia involving a fertility ...

testkit and Tes-Tape. He is not always so well served by his collaborator--""Dr. Sherries fondly flicks through the pages of his scientific papers pointing to pictures of his patients sperm""--since Mr. Rorvik, in attempting to present him in a kindly, avuncular fashion, really diminishes him. Final chapters pursue very lightly some of the affiliated social and moral questions re sex selection.
