出版者:W. W. Norton & Company

出版时间:2000-2-24

装帧:Paperback

isbn:9780393973815

Recognizing that the goal of the grammar course is to improve students grasp of American English grammar, and not to make students into linguists, Paul Hopper has

written a streamlined, concise textbook. He avoids getting caught up in details that are interesting to linguists but confusing to students, keeping his steady focus on presenting material as briefly and as clearly as possible.
