著者:Mary Whitlock Blundell

出版者:Cambridge University Press

出版时间:1991-07-26

装帧:Paperback

isbn:9780521423908

This book is a detailed study of the plays of Sophocles through examination of a single ethical principle. Sophocles has traditionally been considered the least philosophical of the three great Greek tragedians, but Professor Whitlock Blundell offers an important new examination of the ethical content of the plays by focusing primarily on the traditional Greek popular moral code of 'helping friends and harming enemies'. Five of the extant plays are discussed in detail both from a dramatic and an ethical standpoint, and the author concludes that ethical themes are not only integral to each drama, but are subjected to an implicit critique through the tragical consequences to which they give rise. Greek scholars and students of Greek drama and Greek thought will welcome this book, which is presented in such a way as to be accessible to specialists and non-specialists alike. No knowledge of Greek is required.

书评

吴姐姐的课上请了李猛哥哥。李猛从家国开始谈起，然后谈到了友爱。我们知道亚里士多德就家庭和私有的安排和柏拉图不尽相同，虽然柏拉图的《法律篇》和他先前的对话《理想国》有所出入。亚里士多德强调友爱之于城邦的重要性。他在《尼各马可伦理学》第八卷里对philia有所讨论。...
