In the world of DarkMatter, all you see is not all there is. And sometimes, the answers lie on the other side. A young woman lies in a coma, inexplicably lost to this world. Meanwhile, investigators from the Hoffman Institute unravel the dark secrets of a ghost seen wandering a Chicago cemetery. DarkMatter novels will find an eager audience among many different types of fans. They re an ideal source of inspiration for roleplayers as well as an entertaining read for science fiction enthusiasts.
