The Great And Glorious Coastal city of MacOongafoondsen (population twenty-one) lies sheltered from the world. Some citizens, like Fierfl the Tailor and Miss Darkniss the Candle Maker, have never even seen the sea. Then a ship washes up with a lone survivor -- a small, odd, hairy figure the townspeople take for a Frenchman and call Monsieur Eek. While thirteen-year-old Emmaline and her best friend, Philip, welcome Monsieur Eek, devious Shmink the Bailiff has other plans. In short order the newcomer is arrested as a foreign spy and put on trial for his life. Emmaline mounts a spirited defense. But as the town's fear of foreigners (and Frenchmen) grows, it seems that nothing will save her new friend. In his first book for young readers, noted playwright and humorist David Ives makes a memorable debut, creating a sparkling fable, moving and funny, about two young people who risk everything to change the minds -- and the history -- of an entire town.
