A critically acclaimed book--now also a major documentary film--of "compelling immediacy and irrefutable authenticity, as a testament now and for years to come." ( The Los Angeles Times ) Former United States Marine Brian Steidle served for six months in Darfur as an unarmed military observer for the African Union. There he witnessed first-hand the ongoing genocide, and documented every day of his experience. Fired upon, taken hostage, a witness to villages destroyed and people killed, frustrated by his mission's limitations and the international community's reluctance to intervene, Steidle resigned and has since become an advocate for the world to step in and stop this genocide. The Devil Came on Horseback is a gripping memoir that bears witness to unimaginable atrocities and urges all of us to take action.
