isbn:9780746070055

This astonishingly inventive title allows young children to discover the inner workings of the human body in a gently humorous, yet wholly accurate way. Bright, original colour illustrations and diagrams display all the major organs of the human body and

are accompanied by witty, clear and informative factual text. It contains over fifty flaps, which children can lift to reveal extra detail. Entertaining and authoritative, this is human biology for children at its very best - a book both educational and enjoyable.
