From cabbage burps to chunky vomit, a day in the life of your fantastic body meet Nanocam. He may be smaller than a full stop, but he's your expert guide for an in-your-body journey you'll never forget. Join him for an edge-of-your-seat ride through arteries, muscles, organs and nerves. Jaw-dropping 3D pictures show in graphic detail how your body keeps everything ticking, 24 hours a day. Get a close-up look at battles

with bugs and germs, a 150kph sneeze, and a hairy waxy trap set for an ear-invading creepy-crawly (yikes!). Have you got the stomach for the CD-ROM? Find out what happens when you pop zits, chuck up dinner or empty your bladder with ten mini-movies showing all the glorious yucky detail. It's a thrill-a-minute anatomical adventure!
