New, expanded edition: the world's best full-colour travel guides just got better. Bali and Lombok are two neighbouring islands that share the same cultural heritage and volcanic landscape yet offer visitors two very different experiences. Bali with its riot of colours, noise and opulence can often overshadow quieter Lombok with its thatched villages and deserted beaches, a more recent addition to the tourist map. "The Eyewitness Travel Guide to Bali & Lombok" captures the variety and essence of both islands, directing you to the best sights and attractions that each of them has to offer.
