This package includes:

The Romanti-Goth A to Z Coloring Book

In your hands, is an alphabetical trip through the aesthetic world of our favorite Victorian house dwelling, Eyeliner applying, Hearse driving, Night worshipping, Friends of the Goth pantheon - the Romanti-Goth!

Here, honored in full glory, are twenty six specifically chosen images of a Lace and Corset wearing world. Turn these pages and find images that are playful enough for children, but are endearing to those who haven't thought of picking up a crayon, oil pastel, or magic marker, in years.

So, if you remember painting backstage walls as others played sports...or you were creating stories with stuffed animal bats, Spider hats and Masquerade ballrooms while siblings played video games...this book is for you, whether you're a Fishnet covered, Jack-O-Lantern carving, Absinthe drinking, cane-carrying Goth, or not.

The continuing whimsical tale of seekers who travel through the lands of literary transiterations, mystical ruminations, anachronistic destinations & gothic imaginations...
