isbn:9780802822161

As the basis of modern translations of the Scriptures, biblical Greek and lexicography are disciplines vital to our understanding of the original Christian message. This volume, which celebrates the career of Frederick W. Danker, presents the state of the art in Greek and biblical language studies. Amid the important topics of discussion are how one discovers the meaning of words, current tools available to students of language, and the approach being used in the latest New Testament and Septuagint Greek dictionaries. Added features of this book include appendices listing current Greek-English dictionaries and grammars and current Greek dictionary and language projects as well as indexes of biblical references, Greek and Hebrew words, and grammatical terms.
