Ethical questions feature prominently on today's cultural and political agendas. The Ethics of Cultural Studies presents an ethical manifesto for Cultural Studies, an exploration of its current ethical and political concerns, and of its future challenges. The book is concerned with ethics in the material world, and draws on examples as diverse as cloning and genetics, asylum and immigration, experiments in plastic surgery and in electronic and digital art, memories of the Holocaust, September 11th, and media representations of violence and crime. The Ethics of Cultural Studies is a groundbreaking intervention that sets the debate on ethics in cultural study, and offers an invaluable source of ideas for students of contemporary culture.
