The Preparation of a Product Liability Case offers substantive analysis and practical, expert guidance on analyzing theories of liability, conducting pre-trial discovery and discovery of particular information, introducing crucial evidence, and planning litigation strategies. You'll find all the hands-on guidance you need to tackle such essential aspects of the product liability litigation process as: Strict liability, including

the design defect, manufacturing defect, and marketing defect theories-- Failure to warn-- Breach of warranty.-- Admissibility of remedial measures-- Defenses, including alteration of the product, compliance with government standards, and open and obvious defects-- Investigating and preparing a product liability action. Helpful practice guides include numerous checklists and sample forms, as well as appendices of interrogatories, sample jury charges, and safety briefs in specific types of cases.
